EDUCATION

B.Tech in Computer Science and Engineering: CGPA: 8.20 2022—2026
Vellore Institute of Technology

SKILLS

Languages & Databases: Java, JavaScript, Python, SQL (MySQL, PostgreSQL), MongoDB
Frameworks: React, Mongoose, and Express
Tools: GitHub, Postman, Visual Studio Code, Docker, AWS, SSMS
Theoretical knowledge: SDLC, Cloud Architecture, Virtualization

EXPERIENCE

Tata Steel — Vocational Trainee: 12 Weeks [\[Link\]](#) Oct 2024 – Dec 2024
Jamshedpur, Jharkhand, India

Collaborated in an Agile, cross-functional team of four to design and deliver an enterprise-grade Hospital Management System.
Applied complete **SDLC phases** — requirements gathering, system design, development, and Performed testing (functional + API) before deployment
Gained strong proficiency in professional collaboration and delivering solutions aligned with business requirements

PROJECTS

Scholar Assist AI [\[Github\]](#) — Tech Stack : Python, OpenAI Embeddings, LiteLLM Dec 2024 – Feb 2025

Developed a **modular, testable** document retrieval system with efficient data handling.
Integrated **LiteLLM-based** model routing to support multiple LLM backends.
Optimized the retrieval pipeline to generate **responses in under 5 seconds**, ensuring scalability and real-time usability.
Implemented **agentic retrieval workflows with re-ranking** to achieve low-latency responses across repositories containing **100+ research papers**.

Hospital Management System [\[Github\]](#) — Tech Stack : ASP.NET, SSMS, React Oct 2024 – Dec 2024

Worked in a 4-member team to design, develop and deploy a cloud-based web application on **AWS** and **25+** REST endpoints.
Secured ASP.NET backend (Visual Studio): RBAC with **3** roles; **100%** endpoints protected.
Optimized SQL Server (SSMS): designed **20+** tables, **12+** indexes; reduced average query time by **35%**.

Last Outfit - E-commerce Website [\[Github\]](#) — Tech Stack : MERN Aug 2023 – Nov 2023

Accomplished robust user access management as measured by secure authentication flow and controlled role-based permissions **by implementing Express sessions**.
Delivered fast, flexible data management—improved query speed and scalable document handling—**using MongoDB** for product and order storage.
Achieved efficient backend performance with reduced API response time and simplified routing **by utilizing Node.js and Express** for backend development.

CERTIFICATES

Full-Stack Development ([Certificate](#)), IBM DevOps ([Certificate](#)), Linux for Developers ([Certificate](#))

CO-CURRICULAR

Held the position of Tech Lead at the Matrix Club, VIT Bhopal University .
Participated in Hackathons and several debate competitions during academic tenure .
Reading Books and keen interest in current technology trends .
